# → MAPPING WATER BODIES FROM SPACE CONFERENCE

18–19 March 2015  
ESA-Esrin | Frascati, Rome (Italy)

## BACKGROUND

The European Space Agency is organising, in the context of the Data User Element (DUE) programme, a conference on Mapping Water Bodies from Space - MWBS 2015.

The purpose of this conference is to provide scientists and data users with the opportunity to present first-hand and up-to-date results from their on-going research and application development activities by using data from past and current Satellites.

The Conference will be held at ESA – ESRIN (Frascati - Italy) the 18 and 19 of March 2015.

The outcome of this conference will help to further shape the next generation of R&D activities in the frame of ESA Earth Observation Programme.

## PARTICIPATION

The workshop is open to:

- ESA Principal Investigators
- co-investigators
- Sentinel-1 and Sentinel-2 users
- Scientists
- Students
- representatives from national, European and international space agencies and value adding industries

## ORGANISATION

The conference will be organized around:

- Oral and poster presentations selected by the Scientific Committee

## LANGUAGE AND FEES

The official language of the workshop is English.

No participation fees will be charged.

Participants are expected to finance their own travel and accommodation expenses.
